TORONTO, April 30, 2014 – Starlight U.S. Multi-Family (No. 2) Core Fund (TSX.V: SUD.A, SUD.U) (the “**Fund**”) today updated investors on the occupancy and rental rates at the Fund’s properties.

The occupancy of the Fund’s properties from the commencement of operations in November 2013 to March 31, 2014 was 93.6% or 0.8% higher than the forecasted occupancy for the period ending March 31, 2014 as set out in the Fund’s final prospectus dated October 30, 2013.

“Given the strong occupancies at our properties, the Fund is aggressively increasing rental rates on both new and renewal leases while concessions are being curtailed,” said Evan Kirsh, President of the Fund. “In addition, we have implemented yield management software at each of the Fund’s properties. We are utilizing the software to optimize asking rents and renewal rents in real time, based on supply and demand for different unit types.”
